Good icon sets. Realistic looking. Could use a few icons missing (drive & gps), but overall they're a great asset to my website. June 6, 2015 I really like how they've organized the icon set and its great to have it all in one package. June 6, 2015 Nice and clean but not many icons. Not really sure what is this for but looks ok. I might get some use out of it. June 6, 2015 It was a good icon pack to start with, then after installing it, I discovered that it was a scam. A lot of the icons are not placeholders but are just paths and wrong icons for their corresponding categories. I have fixed it on my website (with source code to show what was missing and what was changed) but it takes away from the experience and it is more 81e310abbf
