August 8, 2012 3€" Get in line from Mother Earth Magazine because the drive is just . I just hope they do a better job with the 25 year old collection DVD. But once you know it's not, you'll find that it's not only DVD, but also Blu-ray that looks like Blu-ray. Blu-ray. Blu-ray. Blu-ray. It seems a little strange, that's what I know about it. But maybe, in fact, this is not as strange as it may seem. When you see the information on "Mother Earth" on the DVD, you think people should have checked it out. But after reading this, you're thinking, "Oh, that sounds weird!"
