Supremo Remote Desktop 4.0.1.1984 Crack Latest.Q: Hooking Mechanize I am trying to get mechanize to connect to a page behind a corporate firewall. I have tried every combination of http-basic, proxy-basic, https-proxy-basic, https-socks5-proxy-basic and a few other things, but the page always gives a 502 from the proxy. Is it something with the proxy settings on the mechanize host? The same works fine for other pages on the site. A: From the documentation: You need to be aware that mechanize is a low level tool for manipulating webpages.
